

BT-F192

1. Instruction

BT-F series bi-telecentric lens have been specifically designed to fit 35mm format(36×24mm) detectors with very high resolution, such as 11, 16 or 29MPX. This series bi-telecentric lens are also perfectly suitable for 2kpx、4kpx and 6kpx lines can cameras.

2. System Parameter

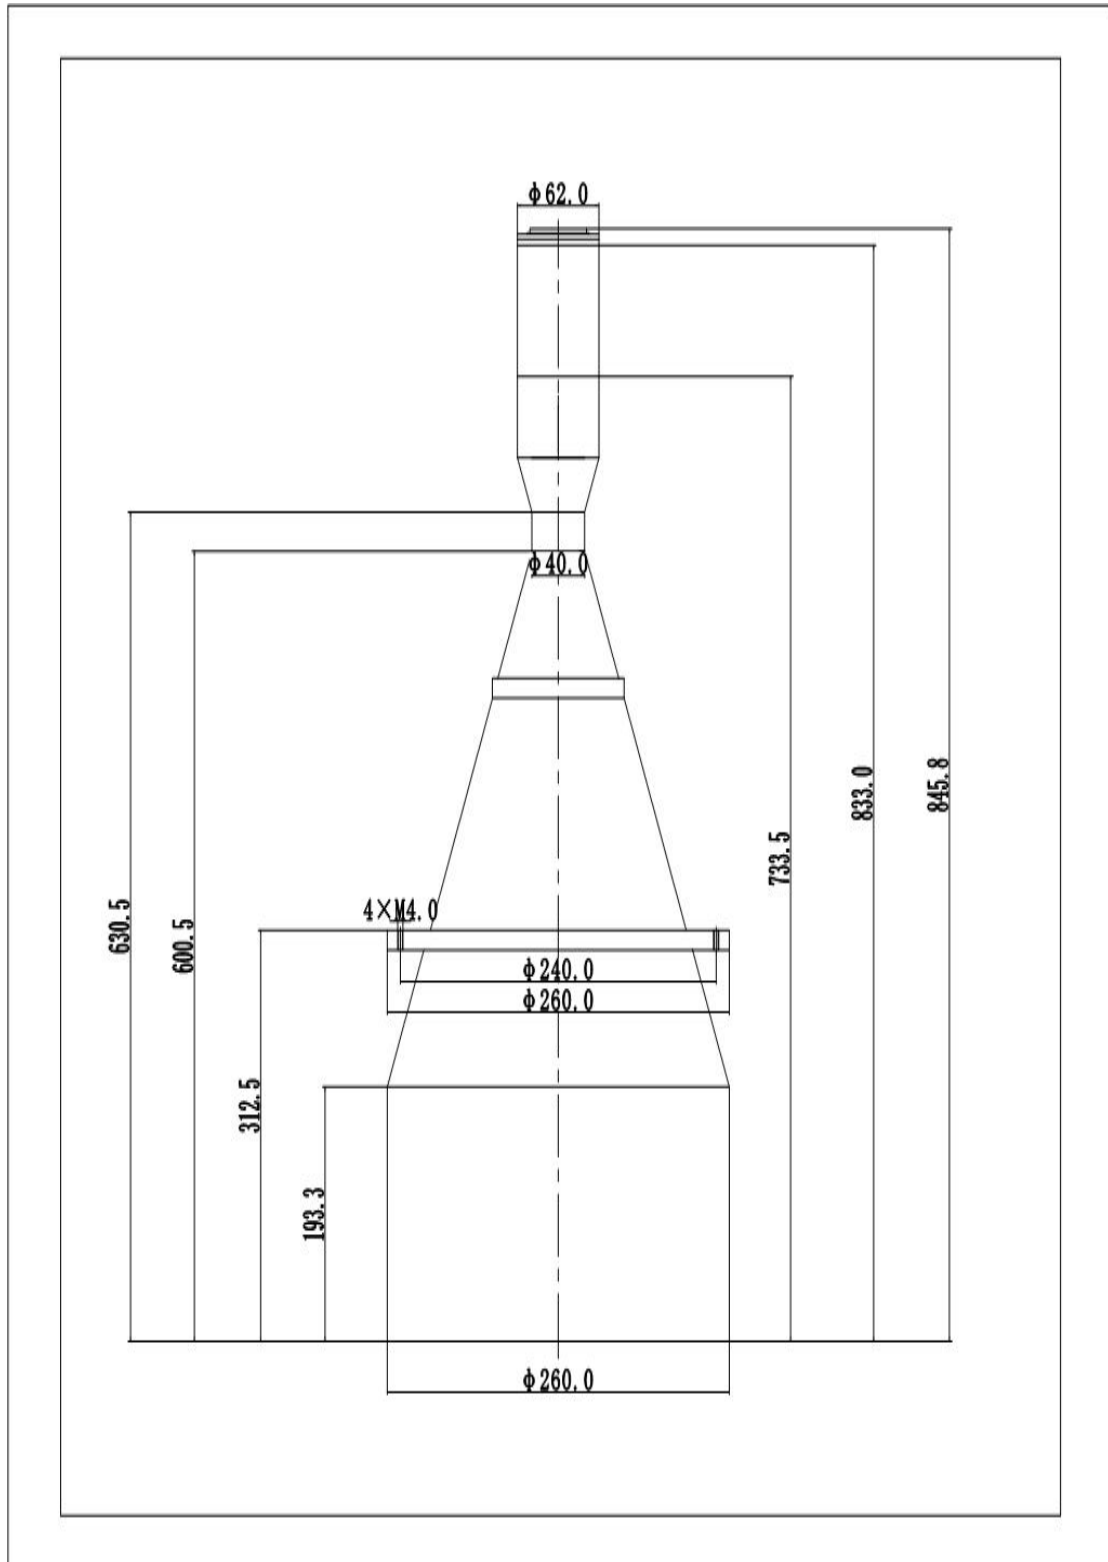

Part number		BT-F192	
Mag.(x)		0.187	
Detector type(mm)	35mm w*h	192*128	
	Line scan	Line -2K (14 μ ·28.672)	152.5
		Line -4K (7 μ ·28.672)	152.5
		Line -6K (7 μ ·43.008)	228.8
F#		16	
Telecentricity Typical(max) (deg.)		<0.04	
W.D. (mm)		531 \pm 3%	
Field Depth (mm)		20	
Distortion Typical(max) (%)		<0.05(0.10)	
Mount		F	
Length (mm)		845.8	
Dian Φ (mm)		260	
Weight (kg)		11.5
